Ali Derar Ali Yaqoub

Software Engineering Student | Full Stack Developer

Salfit, Palestine | +972 59 434 8757 | alideraralialiali@gmail.com | Arabic: Native | English: Intermediate

Portfolio | GitHub | LinkedIn

PROFILE

Software Engineering student and Full Stack Developer with hands-on experience building responsive interfaces, mobile apps, backend APIs, and UI/UX designs. Skilled in React, React Native, Angular, TypeScript, Laravel, authentication flows, dashboards, provider onboarding systems, REST API integration, and reusable components.

EDUCATION

An-Najah National University, Palestine | B.Sc. in Software Engineering | Expected Graduation: 2027

TRAINING & CERTIFICATES

Full Stack Development Training - OppoTrain | Jan 2026

• Completed 320 hours focused on ReactJS, responsive UI, reusable components, API integration, and Django backend integration.

PROJECTS

Lumixy - Service Provider Marketplace | Link

Full-stack mobile platform for managing service providers, admin operations, approval tracking, and public provider discovery.

Technologies: React Native (Expo), TypeScript, NativeWind, React Query, Context API, Laravel API

• Built provider registration, profile management, admin workflows, and Arabic/English reusable UI components.

Lumixy Backend - RESTful API | Link

Backend API for a service provider marketplace connecting customers with approved local service providers.

Technologies: Laravel 11, MySQL, Laravel Sanctum, Laravel Mail

• Implemented auth, provider onboarding, admin approval actions, paginated endpoints, OTP reset, and image uploads.

THP - Technical Hiring Platform | Link

Angular web application for technical talent management, job posting, bidding, dashboards, and reporting.

Technologies: Angular 19, Bootstrap 5, Chart.js, ng2-charts, SweetAlert2, jsPDF, xlsx

• Developed responsive UI, authentication screens, job flows, dashboard charts, and PDF/Excel export.

MedTrack / Time4Meds - UI/UX Medication App | Link

UI/UX design project for a medication reminder app that helps users follow medication schedules and improve treatment adherence.

Technologies: UI/UX Design, Mobile App Design, User Flow, Behance Case Study

• Designed a user-friendly medication tracking experience with clear scheduling and reminder-focused screens.

Ali Portfolio Website | Link

Modern responsive portfolio website showcasing skills, services, projects, education, certifications, and contact links.

Technologies: React 18, Vite, Three.js, GSAP, Tailwind CSS

• Built 3D animated background, smooth scroll effects, glassmorphism UI, dark theme, and responsive sections.
